The American Institute of Architects
Long Island Chapter
Thanks all of the Archi Entrants, Award Sponsors, Patrons, Contributors, Supporters and Attendees,
Without whom this event would not be possible.
On behalf of the Long Island Chapter of the American Institute of Architects, I would like to welcome all guests, participants and contributors to our 50th Annual Archi Awards. The Archi Awards Program is the keystone event of the year. It is here where we join together to celebrate outstanding architectural achievements on Long Island and provide public recognition to firms and projects exhibiting their design excellence.

The jury selected the projects we honor here this evening from 65 submitted. The jury was selected by the AIA St. Louis Missouri Chapter. We extend our deepest gratitude to Michele Swateck, Executive Director for putting together such an illustrious jury. Judging so many projects is a difficult undertaking. The judge’s devotion to the cause of architecture was evident by their serious attention to fully evaluate and judge the submittals. I would like to thank all of the members of the jury.

A special event like this would not be possible without the contributions of our sponsors. Please take note of their advertisements in this journal and consider using their products and services in your professional and business endeavors. Our interest in these contributors will allow us to offer this special event for years to come.

Finally, I would like to thank the members of the Archi Committee for their efforts in planning and organizing the award process and this event.

Enjoy the evening!

Regards,
Anthony S. DiProperzio, AIA
2014 Chapter President
THE “ARCHI” STATUETTE

The “Archi” was designed specifically for the 1970 Annual Long Island Association Architectural Awards Program. The name was taken from the Greek word Architekton, which means “Chief or Master Builder”.

The award is 13” tall, and incorporates a T-square, an arch and a three-sided face representing the past, present, and future.

HISTORY AND PURPOSE OF THE ARCHI AWARDS

Every year since 1964, the Long Island Chapter of the American Institute of Architects has celebrated outstanding architectural achievement through the annual Archi Awards Program. The purpose of the Archi Awards Program is to provide professional and public recognition of architectural projects of design excellence. The awards recognize projects conceived and built on Long Island as well as projects designed by Long Island architects, built or planned to be built elsewhere.

Since its creation by the Long Island Association of Commerce and Industry, followed by the involvement of the AIA Long Island Chapter, the Archi Awards Program has gained prominence as the Long Island community has begun to recognize and understand the impact of quality architecture on the built environment. To date, over 800 projects have received awards and recognition for design excellence. Each entry is judged on the success of the design solution presented and not in competition with other entries. Today, the Archi Awards Program is a major event in the Long Island design community which raises awareness of the importance of quality architectural design to Long Island as a whole.
AWARD CATEGORIES

ARCHI AWARDS

All Archi Award entries must fall into one of the following categories, which include both new construction projects and additions/renovations. Each category has a BUILT and an UNBUILT classification. The categories are:

- Commercial/Corporate - Large over $2 million
- Commercial/Corporate - Small under $2 million
- Institutional
- Unbuilt Projects
- Government
- Small Projects ($200,000 maximum cost)
- Sustainable Design
- Health Care
- Educational
- Mercantile
- Mercantile/Retail - Small under $2 million
- Interior Architecture
- Residential: Single/Multi-Family
- Historic Restoration/Adaptive Reuse
- Hospitality

HONOR AWARDS

These awards, selected by the Board of Directors of the Long Island Chapter AIA, recognize individuals and firms for outstanding service to the Long Island architectural community:

HONOR AWARDS CATEGORIES

- The AIA Architectural Achievement Award: Presented to an architectural firm or individual architect that has produced distinguished architecture consistently for a period of at least 10 years.
- The AIA Benefactor’s Award: Presented to a public group, private individual or group of individuals or corporation who has sponsored and supported distinguished works of architecture on Long Island.
- The AIA Membership Award: Presented to an AIA member who has provided outstanding service to the Chapter for over 10 years.
- The Lifetime Achievement Award: Presented to an architectural firm or individual architect for outstanding achievement for over 20 years.
- The Community Service Award: Presented to an architectural firm or individual architect who through their actions have increased the quality of life within the community.
- The Legislator Award: Presented to a Legislator who has assisted in sponsoring bills that benefit the health, safety and welfare of the community.
- The Educator Award: Presented to an educator who has consistently endeavored to advance the profession through promoting the importance of quality architecture and its positive influence on society.
2014 Honor Awards Winners

Lifetime Achievement Award

Presented to an architectural firm or individual architect for outstanding achievement for over 20 years.  
*Lacroze. Miguens. Prati*

◆

Membership Award

Presented to an AIA member who has provided outstanding service to the Chapter for over 10 years.  
*Martin N. Hero, AIA*

◆

Educator Award

Presented to an architectural firm or individual architect who through their actions have increased the quality of life within the community.  
*Jon Michael Schwarting, AIA*
SPECIAL AWARDS

These awards are selected by the jury from the Archi Awards entries and recognize projects for design excellence in one of the following categories:

- **Lighting Design Award sponsored by Enterprise Lighting** - Presented for the best use of natural or artificial lighting.

- **Sustainable Design Residential sponsored by GreenLogic Energy, LLC** - The project should exhibit innovative aspects to sustainable and green design in a residential setting.

- **Sustainable Design Commercial sponsored by Long Island Power Authority** - The project should exhibit innovative aspects to sustainable and green design in a commercial setting.

SPECIAL AWARDS WINNERS

Enterprise Lighting Sales -
Lighting Award Residential
TPG Architecture
AIP Publishing - Melville, NY

GreenLogic Energy -
Sustainable Design Residential
Narofsky Architecture
Concrete House - Old Westbury, NY

Long Island Power Authority -
Sustainable Design Commercial
Notaro Grupp Architects
Bottle Bargains - Fort Salonga, NY
Each year the Archi Awards Committee is responsible for soliciting design oriented individuals who are not from the Long Island area to participate as jurors. This year’s jury was comprised of the following:

**PHILIP DURHAM**  Philip Durham was born in Providence, Rhode Island in 1961 and spent his childhood years living on Long Island and in upstate New York. Educated at Washington University in St. Louis, he earned a Bachelor of Arts degree in 1983, and a Masters of Architecture degree in 1985. After graduation, Philip took a job as a project designer for HOK Architects in St. Louis. He worked on a variety of commercial project types throughout the United States, Mexico, and Europe, travelling extensively.

In 1992, Philip formed Rubio|Durham Architects with offices in Chicago and St. Louis. Since 2002 he has practiced as Studio|Durham Architects from an award-winning 1880’s renovated warehouse in an historic neighborhood of St. Louis. The 10,000 square foot building contains the firm’s offices, a loft apartment and an urban garden.

Studio|Durham Architects has worked on both commercial and residential projects throughout the Midwest and Eastern United States. Architectural licenses are maintained in Georgia, Illinois, Iowa, Missouri, New York and Ohio. Mr. Durham is a member of the American Institute of Architects and the National Council of Architectural Registration Boards.

**Bill Bowersox, AIA,** University of Kansas, Bachelor of Architecture, 1964. Registration: Missouri. Experience: Bill Bowersox directs design at Powers Bowersox Associates. Recipient of thirty-one awards for excellence in design over the past twenty-seven years his accomplishments have been recognized for their clarity and simplicity. He has participated as a juror in numerous design award juries and has been visiting critic at Washington University in St. Louis, Oklahoma State University, and Drury University schools of architecture.

In 1994, the St. Louis Chapter of the American Institute of Architects awarded Bill its first Outstanding Architect of the Year Award. It has been said of Bill’s work: “Regardless of size or nature of the project, Bill Bowersox has taken ordinary projects with ordinary budgets and created extraordinary buildings that routinely win design awards that matter.”

In 2005 Bill received the Distinguished Alumnus of the Year award from the University of Kansas School of Architecture. Affiliations: American Institute of Architects’ College of Fellows - 1985 in recognition of outstanding contributions in architectural design.

**George Z. Nikolajevich, FAIA** Exhibiting a remarkable balance between restraint and expression, George Z. Nikolajevich has created an impressive body of work showcased in a monograph published by Balcony Press. With an architectural background rooted in Europe, his buildings reveal a quiet sculptural quality that impresses with an economy of means. Demonstrating a humanist’s touch with simple materials, Nikolajevich’s work in education and healthcare combines a midwestern sensibility with a flair for sophisticated design. Nikolajevich’s critical insight is sought by educators, healthcare practitioners, government officials, and business leaders alike. His expertise in persuading clients to forsake the familiar and his ability to surpass expectations, has resulted in two decades of award-winning projects recognized by the AIA, Chicago Athenaeum Museum of Architecture, Illuminating Engineering Society, and American School & University. In addition to work published in Healthcare Design, Iowa Architect, Architectural Record, Contract Design, Florida Architect, and Progressive Architecture, Nikolajevich has served on more than a dozen design juries and is a frequent lecturer and visiting professor.

Our sincere thanks to those who submitted projects and our sponsors, all of whom make this evening possible.
Be Lighter. Be Cooler. Be Greener.
Reduce your clients’ electric costs by 20% or more.

PSEG Long Island’s Commercial Efficiency Program (CEP)* can provide your clients with substantial incentives for upgrading to more energy efficient equipment, like high performance lighting and air conditioning. This will reduce your clients’ energy use and costs, with payback on many projects in a year or less.

Call 1-800-692-2626 or visit us online at www.psegliny.com

WE TIP OUR HATS TO YOU
2014 AWARD WINNERS

Hohmann & Barnard, Inc. would like to congratulate all of the outstanding winning projects at this year's Archi Awards.

For over 81 years Hohmann & Barnard has been committed to developing state-of-the-art solutions for the masonry construction industry. Recently, H&B have designed several anchors and an innovative new fluid-applied air & vapor barrier that work together to seal the wall from air & moisture intrusion. When specified together, H&B warrants their wall system for 10 years.

Contact Hohmann & Barnard today to see how we can help you achieve your next AWARD WINNING DESIGN!
Congratulations to AIA’s Long Island Chapter on 50 years of architectural excellence recognition and special congratulations to this year’s Archi Award Recipients. Through your innovative creativity you help make this world a better place to live in!

Sincerely,

Chris Salazar, C.O.O.
