

AIA Long Island Chapter is proud to present:

A lecture by Gary Traver of the NYS Codes Division on Green Building

New York State Codes Update on Green Building

Please join us for a lecture given by Gary Traver of the New York State Division of Codes on Green Building.

Green Building is a global effort to address numerous environmental issues.

These issues, include:

- energy efficiency,
- protection of the environment,
- reducing the use of natural resources,
- safe interior environment and reducing carbon emissions.

This course is designed as an overview of the goals of green building.

The course will provide information on:

- green standards,
- green organizations,
- green programs (voluntary and mandatory),
- green building methods, and finally,
- how these issues will affect code enforcement and compliance.

Please join us for a most informative meeting. This meeting should not be missed.
